stay home if you're sick

limit contact with people who are ill

wash your hands frequently

avoid touching your eyes, nose & mouth

passaic COUNTY NEW JERSEY

COVID-19 FACT SHEET

cover your cough

clean & disinfect frequently touched objects and surfaces

There is currently no vaccine to prevent COVID-19 (coronavirus disease). The best way to prevent illness is to avoid being exposed to this virus. However, as a reminder, CDC always recommends everyday preventive actions to help prevent the spread of respiratory diseases.

It is important to have factual, up-to-date information on the coronavirus. The CDC has a "Share the Facts, Stop Fear" page which can be used to determine factual vs. fictional information on the coronavirus. It can be accessed at cdc.gov/coronavirus.
